Quantum Scalar LTFS Appliance: Bezel Replacement

To replace the bezel in your Scalar Linear Tape File System (LTFS) Appliance, refer to the following sections:

Removing the Bezel

To remove the bezel, complete the following steps:

1 Unlock the key lock at the left end of the bezel (see).

2 Lift the release latch next to the key lock.

3 Rotate the left end of the bezel away from the front panel.

4 Unhook the right end of the bezel and pull the bezel away from the chassis of the top Scalar LTFS Appliance.

Chassis

Replacing the Bezel

To replace the bezel, complete the following steps:

1 Hook the right end of the bezel onto the chassis of the top Scalar LTFS Appliance.

2 Fit the free end of the bezel onto the chassis.

3 Secure the bezel with the key lock.
