

Product Bulletin 21

Product	StorNext® 2.8
Summary	StorNext 2.8.1 adds client support for SUSE Linux Enterprise 10.
Date	January 2007

Problem: StorNext 2.8 does not offer client support for SUSE Linux Enterprise 10.

Solution: StorNext 2.8.1 has been enhanced to provide client support for SUSE Linux Enterprise 10. The StorNext client software lets you mount StorNext file systems and enables communication with a StorNext 2.8 server.

Note: Other than adding support for SUSE Linux Enterprise 10, there are no differences between the StorNext 2.8 client software and the StorNext 2.8.1 client software.

To obtain StorNext 2.8.1, contact the Quantum Technical Assistance Center and request the client software and installation instructions. Be sure to specify your hardware platform:

- x86 32-bit
- x86 64-bit
- IA-64
